

IMS-200

Reel Smart Pro

The Scienscope Reel Smart Pro has a cutting-edge barcode camera system with high-resolution and accurate barcode reading capabilities, even if labels have defects. This technology streamlines the incoming process and ensures safe, easy, and error-free material relabeling. The incoming material station can be customized to meet your unique requirements, maximizing efficiency and precision. With the Scienscope Reel Smart Pro, you can experience an optimized workflow that increases productivity and reduces downtime.

Optimal Modular Configuration for Full Automation

FEATURES

- Fast receiving cycle time
- Automatic data entry in ERP
- Full traceability with UID relabeling
- Integrated OCR
- Integrated date code translation
- Manual loader and unloader
- Automatic loader and unloader (optional) for faster validation (optional)
- MES and ERP integration (optional)
- Optimize operator workload
- Industrial PC: Microsoft Windows 11

IMS-200

Smart Reel Pro

	IMS-200 Loader/Unloader	IMS-200 Auto Labeling	
Hardware	Operating System	N/A	N/A
